KINECARDS Answer Wheel

Use this wheel to check whether two graphs match. Turn the wheel until the triangle points to the position-time card number. The window shows the matching velocity-time card number.

KINECARDS Answer Wheel

Use this wheel to check whether two graphs match. Turn the wheel until the triangle points to the position-time card number. The window shows the matching velocity-time card number.

KINECARDS Answer Wheel

Use this wheel to check whether two graphs match. Turn the wheel until the triangle points to the position-time card number. The window shows the matching velocity-time card number.

KINECARDS Answer Wheel

Use this wheel to check whether two graphs match. Turn the wheel until the triangle points to the position-time card number. The window shows the matching velocity-time card number.

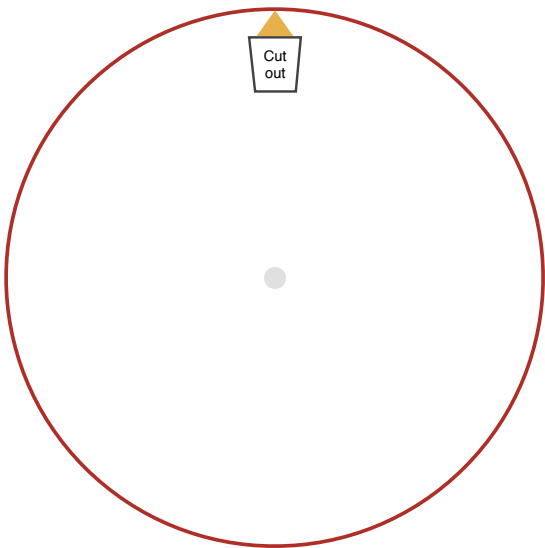

Cut out this wheel and the small window. Use a split pin to fasten this wheel to the main wheel.

Cut out this wheel and the small window. Use a split pin to fasten this wheel to the main wheel.

Cut out this wheel and the small window. Use a split pin to fasten this wheel to the main wheel.

Cut out this wheel and the small window. Use a split pin to fasten this wheel to the main wheel.
